

## BOXED CREATIVE

CLEAN / CRISP / CLEAR / CUTTING EDGE

# MAGAZINE & NEWSLETTER TEMPLATE

Easy to edit and use straight away

Adobe InDesign  
CS5 / CS4 / CS3

## SPECIFICATION

**SIZE:** A4 (297mm x 210mm) - 3mm bleed included

**COLOUR:** Full CMYK

**APPLICATIONS:** Adobe InDesign CS5 / IDML for CS4 / INX for CS3

**RESOLUTION:** 300 dpi

**STYLES:** Paragraph & character

**PLEASE NOTE:** This template includes **LIVE CORNERS** which only work in InDesign CS5. All corner effects will revert to the default shape in InDesign CS4 and CS3

## LINKED ITEMS

All images used in the previews are for illustration purposes only. You can easily link your own images to the InDesign document.

When you open the InDesign file, you will be alerted to an error telling you that there are linked image files missing - But that's okay as you will be replacing them with your own images so just click OK.

When going to print always use images at 300dpi and CMYK colour mode for best results.

## LAYOUT PAGE

All items on the layout pages are grouped, layered and accordingly. All main text includes paragraph text styles. Bullet pointed text is from character style. The document is included with a 3mm bleed all way round the edges. You can easily adjust the colours and styles for any item. The layout is already in the style of an A4 magazine/newsletter layout (facing pages). So if you want to add more pages then just duplicate or add from the pages menu.

## COLOUR

The document already comes with its own preset colours. To change the colour, select the colour that you want to change and then choose your preferred colour from the Swatches tab.

## FONTS

The fonts used in this InDesign document are:

**TitilliumText:** All these fonts come in one zip file at: <http://www.fontsquirrel.com/fonts/TitilliumText>

**Zapf Dingbats BT Regular:** <http://www.linotype.com/852/itczapfdingbats-family.html>

**Museo-300, Museo-500, Museo-700:** <http://new.myfonts.com/fonts/exljbris/museo/>

**Days:** <http://www.dafont.com/days.font>

**Arial Black Regular:** This is a free built in core system font on most OS's

## ADDITIONAL INFORMATION

I hope you enjoy this file and are easily able to adjust it to your specific needs. However if you do come across any problems or need any more information on how to use the InDesign document then please contact me by email: [moghees.s@gmail.com](mailto:moghees.s@gmail.com)

Thank you.
